

# ALGUM

## 14° Bé Gum Solution

**ALGUM** is a 14° Bé Gum Solution for gumming offset printing press plates.

**ALGUM** prevents plate oxidation and can be easily removed.

**ALGUM** is suitable for use in plate processors and can also be used manually.

Usage: For manual use, dilute **ALGUM** to the desired baumé. Apply the solution to the plate with cellulose sponge, and wipe gum until dry.

For processor use, dilute **ALGUM** to the desired viscosity.

Packaging: 1 US gallon (3.785 liters)
