

EXKLEEN

Blanket Conditioner

EXKLEEN not only cleans the blanket but also rejuvenates the rubber. It brings back the matt finish of the blanket without any residues left behind.

EXKLEEN will not make the rubber hard or brittle and provides condition for quality printing.

Usage: Saturate a rag with EXKLEEN and wipe over the blanket vigorously. Some stubborn areas may require more rubbing. Follow with a clean rag to remove surplus cleaner.

Packaging: 1 US gallon (3.785 liters)
