

Magalla Fine Fresh Offset Printing Inks

Magalla sheetfed offset inks have been designed to deliver outstanding results on high-speed printing presses. Visco-elastic core vehicle coupled to selected raw materials are prone to deliver remarkable, smooth and problem-free print.

FEATURES

- High gloss inks
- Fresh overnight-type inks
- High density inks with purer hues, to give higher contrast
- Long mileage reducing ink consumption by 10~15%
- Fast setting reducing the use of anti set-off powder
- Minimal show through eliminating second-day loss in density
- Quick and smooth ink transfer
- Superior trapping
- Fast work and turn
- Excellent rub resistance
- Minimal dot gain
- Color reproductibility: DE<2,5
- Coherent ink system giving an odor-free printing
- Suitable for food indirect packaging

FASTNESS

Process Colors	Code	Light	Alkali	Alcohol	UV varnish	8C perfecting
Magenta	3322	4	N	Y	N	N
Yellow	3346	5	Y	Y	N	N
Cyan	3356	8	Y	Y	N	N
Black	3373	7	N	Y	N	N

SUBSTRATES

Substrates	Coated	Uncoated	Matt	Recycled	Board
	Y	Y	C	Y	Y

Lightfastness (1: poor ~ 8:excellent)

Y: Yes

N: No

C: Caution
