

# AQUAMIX

## Fountain Solution

**AQUAMIX** is a fountain solution for use on webfed printing presses and sheetfed printing presses.

**AQUAMIX** is a fountain solution designed to eliminate or reduce the use of isopropyl alcohol in offset dampening systems.

**AQUAMIX** enhances ink water balance even at high-speeds providing clean and sharp printing results.

**AQUAMIX** reduces plate oxidation, foaming, bacteria or fungus and image growth.

**AQUAMIX** decreases ink consumption and increases gloss.

**AQUAMIX** provides a cleaner and safer printing atmosphere for pressmen.

Usage: 2~3% according to water hardness. With unusual reverse or problem inks, add as necessary.

Packaging: 1 US gallon (3.785 liters)  
25 liters gallon
