

Uvarex SF High Gloss UV Offset Printing Inks

Uvarex SF UV sheetfed offset inks have been designed to deliver outstanding results on high-speed printing presses. Dynamical built acrylate backbone coupled to selected raw materials are prone to deliver remarkable, smooth and problem-free print.

FEATURES

- High gloss inks
- Ultra-fast cure
- Wide-array cure response
- Compliant to ISO 2846 standard
- High density inks with purer hues, to give higher contrast
- Quick and smooth ink transfer
- Superior trapping
- Excellent rub resistance
- Minimal dot gain
- Color reproductibility: DE<2,5
- Coherent ink system giving an odor-free printing
- Suitable for food indirect packaging

FASTNESS

Process Colors	Code	Light	Alkali	Alcohol	UV varnish	8C perfecting
Magenta	7223	4	N	Y	Y	Y
Yellow	7247	5	Y	Y	Y	Y
Cyan	7257	8	Y	Y	Y	Y
Black	7274	7	N	Y	Y	Y

SUBSTRATES

Substrates	Plastic	Foil	Metal	Paper	Board
	Y	Y	C	Y	Y

Lightfastness (1: poor ~ 8:excellent)

Y: Yes

N: No

C: Caution
